Physiotherapists

Our team

Speech and Language Therapists

Occupational Therapists

What we aim for

To provide a co-ordinated and integrated rehabilitation service to patients with acute and long term physical conditions.

Who we see

Adults with rehabilitation needs who require to be seen in their home environment. Needs may include:

- Physical
- Functional
- Work-related
- Communication, eating, drinking and /or swallowing.

Individuals whose primary issues are mental health problems, have a learning disability or significant drug or alcohol problems should be referred to other specialist teams.

Our objectives

- To facilitate a multidisciplinary approach to the rehabilitation of patients in their community setting to meet their individual needs
- To provide timely and effective access to rehabilitation
- To enable patients and carers to manage their long term conditions through education advice and support
- To provide a high standard of therapeutic assessment which is person-centred and needs based
- To provide an expert advice source for carers/relatives, other health professionals, voluntary agencies and other relevant community-based organisations.

Who can refer?

- Healthcare professionals
- Social care
- Voluntary agencies
- Patients /carers /relatives (Occupational Therapy and Speech and Language Therapy only).

How to refer

Patients /carers /relatives can self refer to Occupational Therapy by phoning 0131 537 9883, or to Speech and Language Therapy by phoning 0131 454 9544. Referrals for Physiotherapy should be made through the GP.

Professional referrals can be made as follows:

- **eAssess** (team inbox for **Midlothian Community Physical Rehabilitation Team**)
- **SCI gateway** (GPs only)
- **Internal mail** or **post**. Physiotherapy referrals should be addressed to Referral Management Centre, Attic Offices, Roodlands Hospital, Hospital Road, Haddington EH41 3PF. All other mail should be sent to the address overleaf.
- **Telephone 0131 537 9883**
